

...Service Beyond Profit...

InfoMall Ltd provides superior Rich Internet Application software and consulting services for managing the implementation of Data, Information and Identity Management Systems across education, government and various business industry verticals, serving both the public and private sectors.

We bring a fresh and innovative approach to consulting services, acting as liaison between the end-user and the software provider.

Digital Signature *New!*

Digital signature solutions produce legally enforceable electronic records, closing the gap in going fully paperless by completely eliminating the need to print documents for signing.

Digital signatures enable the replacement of slow and expensive paper-based approval processes with fast, low-cost, and fully digital ones.

- Anywhere, everywhere access to learning
- resources
- Personalized Unified Catalogue
- Cost Effective
- Supports mobility
- Re-usable content
- Email notification
- High scalability
- Reporting
- Training calendar

Portal - Microsoft SharePoint

Microsoft SharePoint 2010 makes it easier for people to work together. Using SharePoint 2010, your people can set up team sites to share information with others, manage documents from start to finish, and publish reports to help everyone make better decisions in form of Intranet Portal or Extranet Portal.

- ❖ Portal
- ❖ Workflow
- ❖ Knowledge Base

Human Capital Management Solution

Our HCM solution is a SharePoint based HRM solution that facilitates and automates the entire HR management cycle in a company. The solution organizes the central storage of all HR information, guides and supports HR processes and increases the performance of each employee and organization as a whole.

- ❖ Manage Organizational Structure
- ❖ Manage HR Data and Processes
- ❖ Manage Absence
- ❖ Manage Compensations and Benefits
- ❖ Manage Performance
- ❖ Manage Competence
- ❖ Manage Learning and Development
- ❖ Manage Recruiting
- ❖ Manage Careers, Talents and Succession

Customer Relationship Management[CRM] Solution

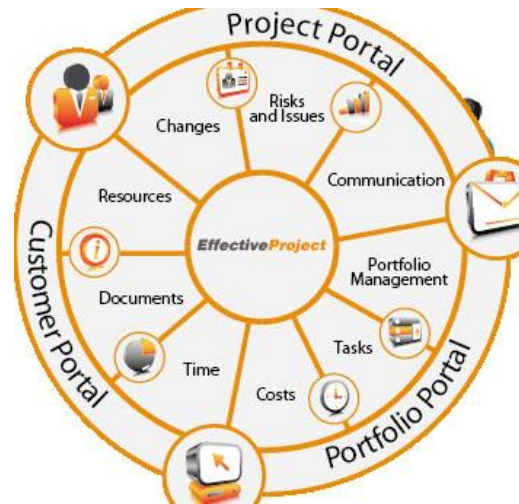

As a modern day organization, you need a centralized database system that will improve relationship between customers, contacts, prospects, partners and team members and also develop corporate best practices, leverage the team and do more than getting you organized – making you stay organized. Our SharePoint Template CRM meets these needs. This powerful CRM tool also, empowers you with current information, reduces duplication of effort and makes working as a coordinated unit possible.

Enterprise Project Management Solution

Our EPM solution is a SharePoint based solution for effective Project Management. Its main purpose is to help Project Managers, team members and customers organize their project related tasks, get up-to-date information and establish a common understanding for the project success. It has all the features and advantages of the comprehensive Project Management system like task, resource, issue and risk management. In addition to this, it provides a powerful communication tools that help to establish the collaborative environment for all the project parties and participants.

Why Choose Our EPM Solution

- ❖ Comprehensive SharePoint based Project Management solution
- ❖ Dashboards for Project Managers, Portfolio Managers, Team and Customers
- ❖ Notifications and reminders
- ❖ Outlook Integration
- ❖ Extensive reporting

Document Management and Archiving Solution

Document management controls the life cycle of documents in your organization how they are created, reviewed, and published, and how they are ultimately disposed of or retained.

Our solution is flexible enough to enable you to tightly control a document's life cycle, if that fits your enterprise's culture and goals, but also to let you implement a more loosely structured system, if that better suits your enterprise.

- ❖ Centralized Repository
- ❖ Storage Management
- ❖ Data Security
- ❖ Stable Production Environments
- ❖ Enhanced Productivity
- ❖ Policy Based Archiving
- ❖ E-Discovery
- ❖ Document Tagging
- ❖ Compliance
- ❖ Reduced Long Backup Time
- ❖ User Transparency
- ❖ Global SharePoint Archive
